DETAILED ACTION

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to an active matrix liquid crystal panel, classified in class 349, subclass 43.
 - II. Claims 12-23, drawn to a method of fabricating an active matrix liquid crystal panel, classified in class 349, subclass 187.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the active matrix LCD panel can be made by a different process in which the formation of pixel electrodes by the deposition of the transparent conductive film and selective etching can be accomplished by using a fourth mask in a four mask step process, instead of using the first mask as claimed.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. A telephone call was made to Mr. Sean McGinn on 07/24/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.
